

## More about Douglas Gilding & Equinor

### **About**

Douglas Gilding is an improvement specialist in Equinor and supporting different type of improvements activities by embracing philosophies and methodologies such as Agile, Lean, Scaled change, among others. Douglas is a part of the improvement center in Equinor, a team supporting the business in shaping the way Equinor improves and implements changes.

### **Description about the topic Douglas will be sharing**

Equinor, A leading company in the energy transition. Equinor needs to ensure a continuous improvement culture focusing on safe, sustainable and profitable business to deliver. This includes building competence, implementing larger and smaller improvements, sharing learning, new ways of working, embracing innovation and broadly applying solutions across the organization. The Equinor improvement framework forms the backbone for “How we work” with improvements.
